

Serving the New Jersey & New York areas since 1972

PRIME PUMP

Directions:

1. Turn Pump off.
2. Close all valves to pool.
3. Fill pump basket with water and close tightly.
4. Turn pump on.
5. Open one valve one turn until water starts to rush into pump. Depending on the pump, this may take a few seconds to a few minutes. Proceed to open valve completely.
6. Repeat step 5 until all valves are open.

Filters:

Most manufacturers recommend that their filters be cleaned out once per season. Acqua Pools suggests that you do not exceed two seasons without having your filter serviced / cleaned out.
